

# Job Description

## 1. The Position

<b>Position</b>	<b>Junior Environmental Officer</b>
<b>Company information</b>	<p>Welsh Power Group Limited is an employee-owned entrepreneurial energy business. The company's focus is on providing flexible generation and grid stability services to support the UK energy sector's transition to net zero.</p> <p>Welsh Power has developed and built 27 separate power assets in the last 6 years and operates a portfolio of 550MW's of flexible generation on behalf of several investors as well one of the first dedicated grid stability facilities in the UK. Welsh Power has recently been awarded contracts to build four large grid stability projects for National Grid ESO in Scotland.</p> <p>Welsh Power is not an asset owner but develops, constructs and operates power assets on behalf of financial investors. Within the sector this makes Welsh Power unique.</p>
<b>Position Summary</b>	<p>The <b>Junior Environmental Officer</b> will be responsible for supporting facility environmental compliance across the Welsh Power fleet. They will maintain up to date knowledge of facility regulations, perform and review inspections and evaluate and provide feedback for corrective actions and other required reporting.</p> <p>This is intended as a developmental position that will offer the successful applicant training and the ability to gain further qualifications if desired.</p>
